Author Compensation

Author Compensation per book sales set at a basis of 70% per unit sales. This includes all wholesale-Retailer Outlet acquisitions, which are discounted at 40%; therefore, the author will receive a 70% residual from the net wholesale compensation. For all direct book inventory orders by or for the author, the charges include per unit cost times the quantity ordered, Ingram processing fee, shipping, and tax on the purchase. Payment is required in order to activate the order, which may be handled via Venmo, PayPal, cash-app, or check. All orders paid with a check will not be activated until the check has cleared. Usually, these details are easily worked out and managed between the author and the publisher.

.....

Expectations for the Author:

- Provide a fully edited copy of the book manuscript in a Word document to SCP. Only minor edits will be made by SCP that are necessary for the digital upload, including formatting.
- Provide the book cover, ideas, or graphics for a book cover design, to SCP.
- Any changes to the interior or exterior of the book may cause additional fees/costs.
- Once the final copy has been approved, additional costs for changes or edits will incur additional fees/costs.
- Once the base fee and book setup fees are received, along with the manuscript, and signed agreement, work will begin on your book project. The timeframe for this process will vary according to each project, which will be discussed in the outset.
- Contracted fees include base fee, plus all digital and any ala-cart fees selected by the author.
